

Watts Electric Company is a Nebraska based Electrical Contractor doing business in six states. Watts specializes in traffic signals, roadway and ornamental lighting, high mast towers and signage, airport lighting, directional boring, substations, powerline construction, fiber optics, generators and much more. We employ over 100 employees and conduct \$20 - \$30 million sales per year.

Our employees enjoy a fast-paced environment, independence, responsibility, and having a wide variety of duties. The work is interesting with endless opportunities to learn and grow. This position has extremely low turn-over within our company because we recognize the value and knowledge of our Project Managers.

A Project Manager at Watts Electric Company is the liaison between our customers and our field. We provide you ownership of your project from bid to closeout. Examples of work include project estimation and take off, material requisition, submittal review, scheduling of staff and equipment, project coordination, change orders, pay applications, and close out documents.

This position is located in Waverly, Nebraska and does not normally require travel. Normal schedule is Monday – Friday 7 a.m. to 6 p.m.

REQUIREMENTS: Either a bachelor's degree in Construction Management, Engineering, or 7+ Years Equivalent Experience as a Project Manager or Estimator. Highly Proficient with Microsoft Excel, Microsoft Word, and Adobe or Bluebeam. Preference given to candidates with experience estimating Heavy Highway, Commercial, or Utility Line. No felony convictions and able to clear a high security background check. Valid operator's license with no loss of license in 2 years.

Watts Electric is a Smoke-Free, Drug Free Employer. Women and Minorities strongly encouraged to apply.
